

Ahmed Adel Abdelnaby

Machine Learning Engineer & Data Scientist

Location: Egypt • Phone: +201097175482 • Email: a.adel20052005@gmail.com

LinkedIn: [linkedin.com/in/ahmed-adel-ml](https://www.linkedin.com/in/ahmed-adel-ml)

Professional Summary

Results-driven Machine Learning Engineer and Data Scientist with expertise in Python, C++, and SQL, backed by a strong mathematical foundation in Calculus, Linear Algebra, and Statistics. Proficient in building end-to-end data pipelines, developing predictive machine learning models, and optimizing algorithmic solutions. Demonstrates hands-on experience in database management, data analysis, and scalable AI frameworks, supported by advanced technical training and professional communication capabilities.

Education

Bachelor of Information Technology (IT) — Delta Technological University

Expected Graduation: 2025 – 2029

- **Relevant Coursework:** Machine Learning Foundations, Deep Learning Basics, Advanced Calculus, Linear Algebra, Data Structures & Algorithms, Database Systems.

Technical Skills

- **Programming Languages:** Python (Advanced), C++, SQL, Bash.
- **Data Science & ML Libraries:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow.
- **Data Analysis & Databases:** Exploratory Data Analysis (EDA), Relational Databases, SQL Server, Oracle Database, Data Wrangling.
- **AI & Mathematics:** Linear Algebra, Multivariable Calculus, Probability & Statistics, Algorithmic Optimization.
- **Developer Tools & Environment:** VS Code, Jupyter Notebook, Git, GitHub, Linux (Pop!_OS/Ubuntu).

Certifications & Professional Training

Digital Egypt Pioneers Initiative (DEPI) — IBM Data Scientist Track

Ministry of Communications and Information Technology (MCIT) & AMIT Learning

- Comprehensive training diploma specializing in Data Science, Machine Learning, and Applied Artificial Intelligence.
- Hands-on mastery of Python data science stacks, advanced SQL querying, database modeling, and

predictive analytics.

- Integrated practical tracks in Business & Technical English, Professional Soft Skills, and Freelancing Marketplaces & Strategies.

Oracle AI Certified Foundations Associate

Oracle Certification Program

- Accredited training and assessment in core Artificial Intelligence concepts, Machine Learning workflows, and enterprise AI applications.

Programming & Data Science Fundamentals

Self-Paced Specialization (FreeCodeCamp & Advanced Open Source Track)

- Completed intensive coursework covering advanced Python techniques, dynamic object-oriented programming, and algorithmic problem-solving.

Technical Projects

Smart Calculator & System Logic Engine | Python, C++

- Engineered a high-precision calculation engine capable of executing complex arithmetic and modular algorithms with optimal execution performance.
- Structured clean, modular functions utilizing optimized control structures and strict data validation techniques.

Interactive Decision & Game Strategy Engine | Python

- Built interactive algorithmic modules incorporating computerized strategy logic, responsive inputs, and input-sanitization control loops.
- Integrated performance profiling to ensure minimal runtime overhead and robust user interaction handling.

Algorithmic Optimization & Problem Solving | HackerRank

- Solved 20+ logic-intensive coding challenges targeting array manipulation, search optimization, and algorithmic complexity reduction.
- Enhanced script execution speed through syntax refactoring and low-complexity data structures.
